PROFESSIONAL EXPERIENCE

Miami Dade College School of Global Business | Miami, FL   **March 2023 - December 2024**
Student Assistant
- Carried front desk duty: Guided students, responded phone inquiries, scheduled appointments, and provided program information.
- Designed promotional materials using Photoshop and Canva.
- Coordinated advisors' and staff schedules using Microsoft Word and Excel.
- Collaborated in event planning and represented department at open houses.
- Mentored and onboarded incoming student assistants and interns, providing comprehensive training on office procedures, tools, and best practices to ensure seamless integration and high performance.

ACTIVITIES/INVOLVEMENT

- Member: INIT FIU, Phi Theta Kappa Honor Society, Code Crunch

PROJECTS

Finance Sim | CS50X
- Developed a full-stack web application employing Flask framework to simulate a stock trading platform.
- Implemented user authentication and session management implementing Flask-Login, securing sensitive user data with password hashing.
- Integrated IEX Cloud API to fetch real-time stock data and calculate portfolio value dynamically.
- Designed a relational database schema (SQLite3) to store user accounts, transaction history, and stock holdings.

Portfolio Website | https://edugre.github.io/website/
- Developed a personal portfolio website to showcase skills, projects, and experience in computer science using HTML, CSS, JavaScript, SVG, and Bootstrap.
- Ensured website is mobile-friendly and adapts to various screen sizes.
- Included links to professional profiles on X, LinkedIn, and GitHub.
